

## **ABS Air Safety Foundation ABS Online Learning Center Flying Techniques Video Project**

<b>Number</b>	<b>Topic</b>
1	Normal and crosswind takeoff
2	Short field takeoff
3	Soft field takeoff
4	Rejected takeoff (single engine)
5	By the numbers
6	Steep turns
7	Power ON stall
8	Power OFF stall
9	Slow flight
10	Spiral demonstration
11	Maximum glide
12	Manual landing gear extension
13	Emergency descent
14	Normal and crosswind landing
15	Short field landing
16	Soft field landing
17	Balked landing/go-around
18	Simulated engine failure
19	Recovery from unusual attitudes
20	Precision approach
21	Nonprecision approach
22	Circling approach
23	Missed approach
24	Drag demonstration (multiengine)
25	Engine failure (multiengine)
26	Air start
27	Simulated one engine inop landing
28	Single engine go-around (multiengine)
29	Rejected takeoff (multiengine)
30	Door open in flight
